RIM

Infrastructure Management Services to
Optimize and Modernize the IT Environment

Key Highlights

■ Dedicated Patch Management

36000+ active patches pushed to devices keeping systems compliant to internally defined guidelines

■ Risk Mitigation:

Risk Assessment. Continuous Monitoring and Maintenance; Reliable Devices

■ Vulnerability Management:

Patching solutions to keep devices secure, stable, up-to-date

■ Network Security:

Keeps client's business running smoothly and safely while all infrastructure needs are taken

Challenge

Infrastructure Management of 1200+ VMs & 200+ servers across multiple locations

Solution

Patch Management. Streamlined Process. Compliant

Impact

Optimized Computing Efficiency. Robust Infrastructure

Challenge

A top-ranking State Bank in New Jersey placed among the Forbes top 2.4% of US Financial Institutions was seeking a solution to overcome challenges faced with managing their existing devices: 1200+ VMs and 200+ Host Servers. The solution would need to monitor and manage multiple devices across various locations, streamline processes and undertake Remote Infrastructure Management (RIM)

NuSolution

- Identified system vulnerabilities, streamlined and implemented patching schedules across devices to ensure security measures/ optimize computing
- Ensured rapid patch implementation, patching 3rd party tools, including critical recommended patches with continuous monitoring and maintenance
- End-to-end VMWare Infrastructure Management - Including Performance Monitoring, Capacity Management, Patch Management and Migration
- Re-engineering - Including new development, enhancement and maintenance of the client's Web Application

Impact

NuWare's dedicated Remote Infrastructure Management Services improved overall efficiency in optimizing systems, securing critical data, virtual machines and servers. Streamlining the patch management process has ensured robust security measures and up-to-date functioning of systems. NuWare's RIM ensures that software risk is mitigated, allowing the client's business to run safely and smoothly
